GOURMET  
SINGLE CUP

COMMERCIAL BREWING SYSTEMS

THE KEURIG® B130

A COFFEE HOUSE IN EVERY GUEST ROOM

## PAMPER YOUR GUESTS WITH A TOUCH OF HOME AWAY FROM HOME!

BRING THE LEADER OF GOURMET SINGLE CUP BREWING IN THE HOME TO YOUR HOTEL

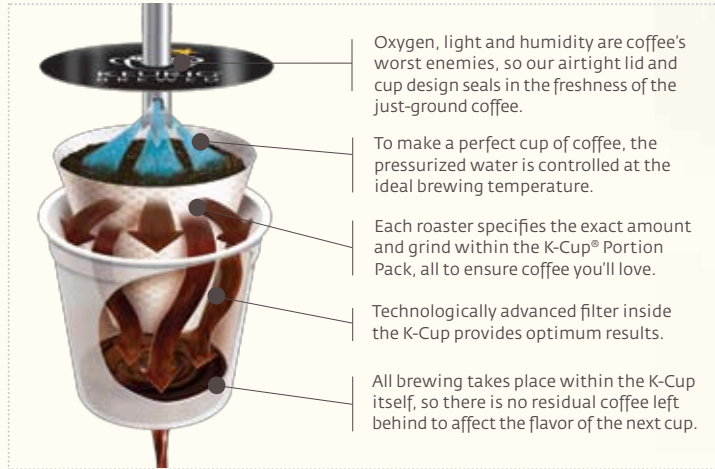

Providing a home-away-from-home feeling is all about the little things. The little luxuries and comforts that make your guests feel welcome. Like in-room coffee that people don't just drink, but love; coffee that's a substantial improvement over what most properties offer. From Keurig — the single cup coffee system preferred in both homes and offices, with more and more cups enjoyed each day. The coffee people love at home and at the office is also available to the hospitality industry. Which, as it turns out, is actually a pretty big thing.

## IN-ROOM BREWING MADE DELICIOUSLY SIMPLE®

### HOW THE K-CUP® WORKS

## CHOOSE

Offer your guests a selection from over 200 varieties of gourmet coffee, tea and hot cocoa available from over a dozen of the world's finest brands.

## BREW

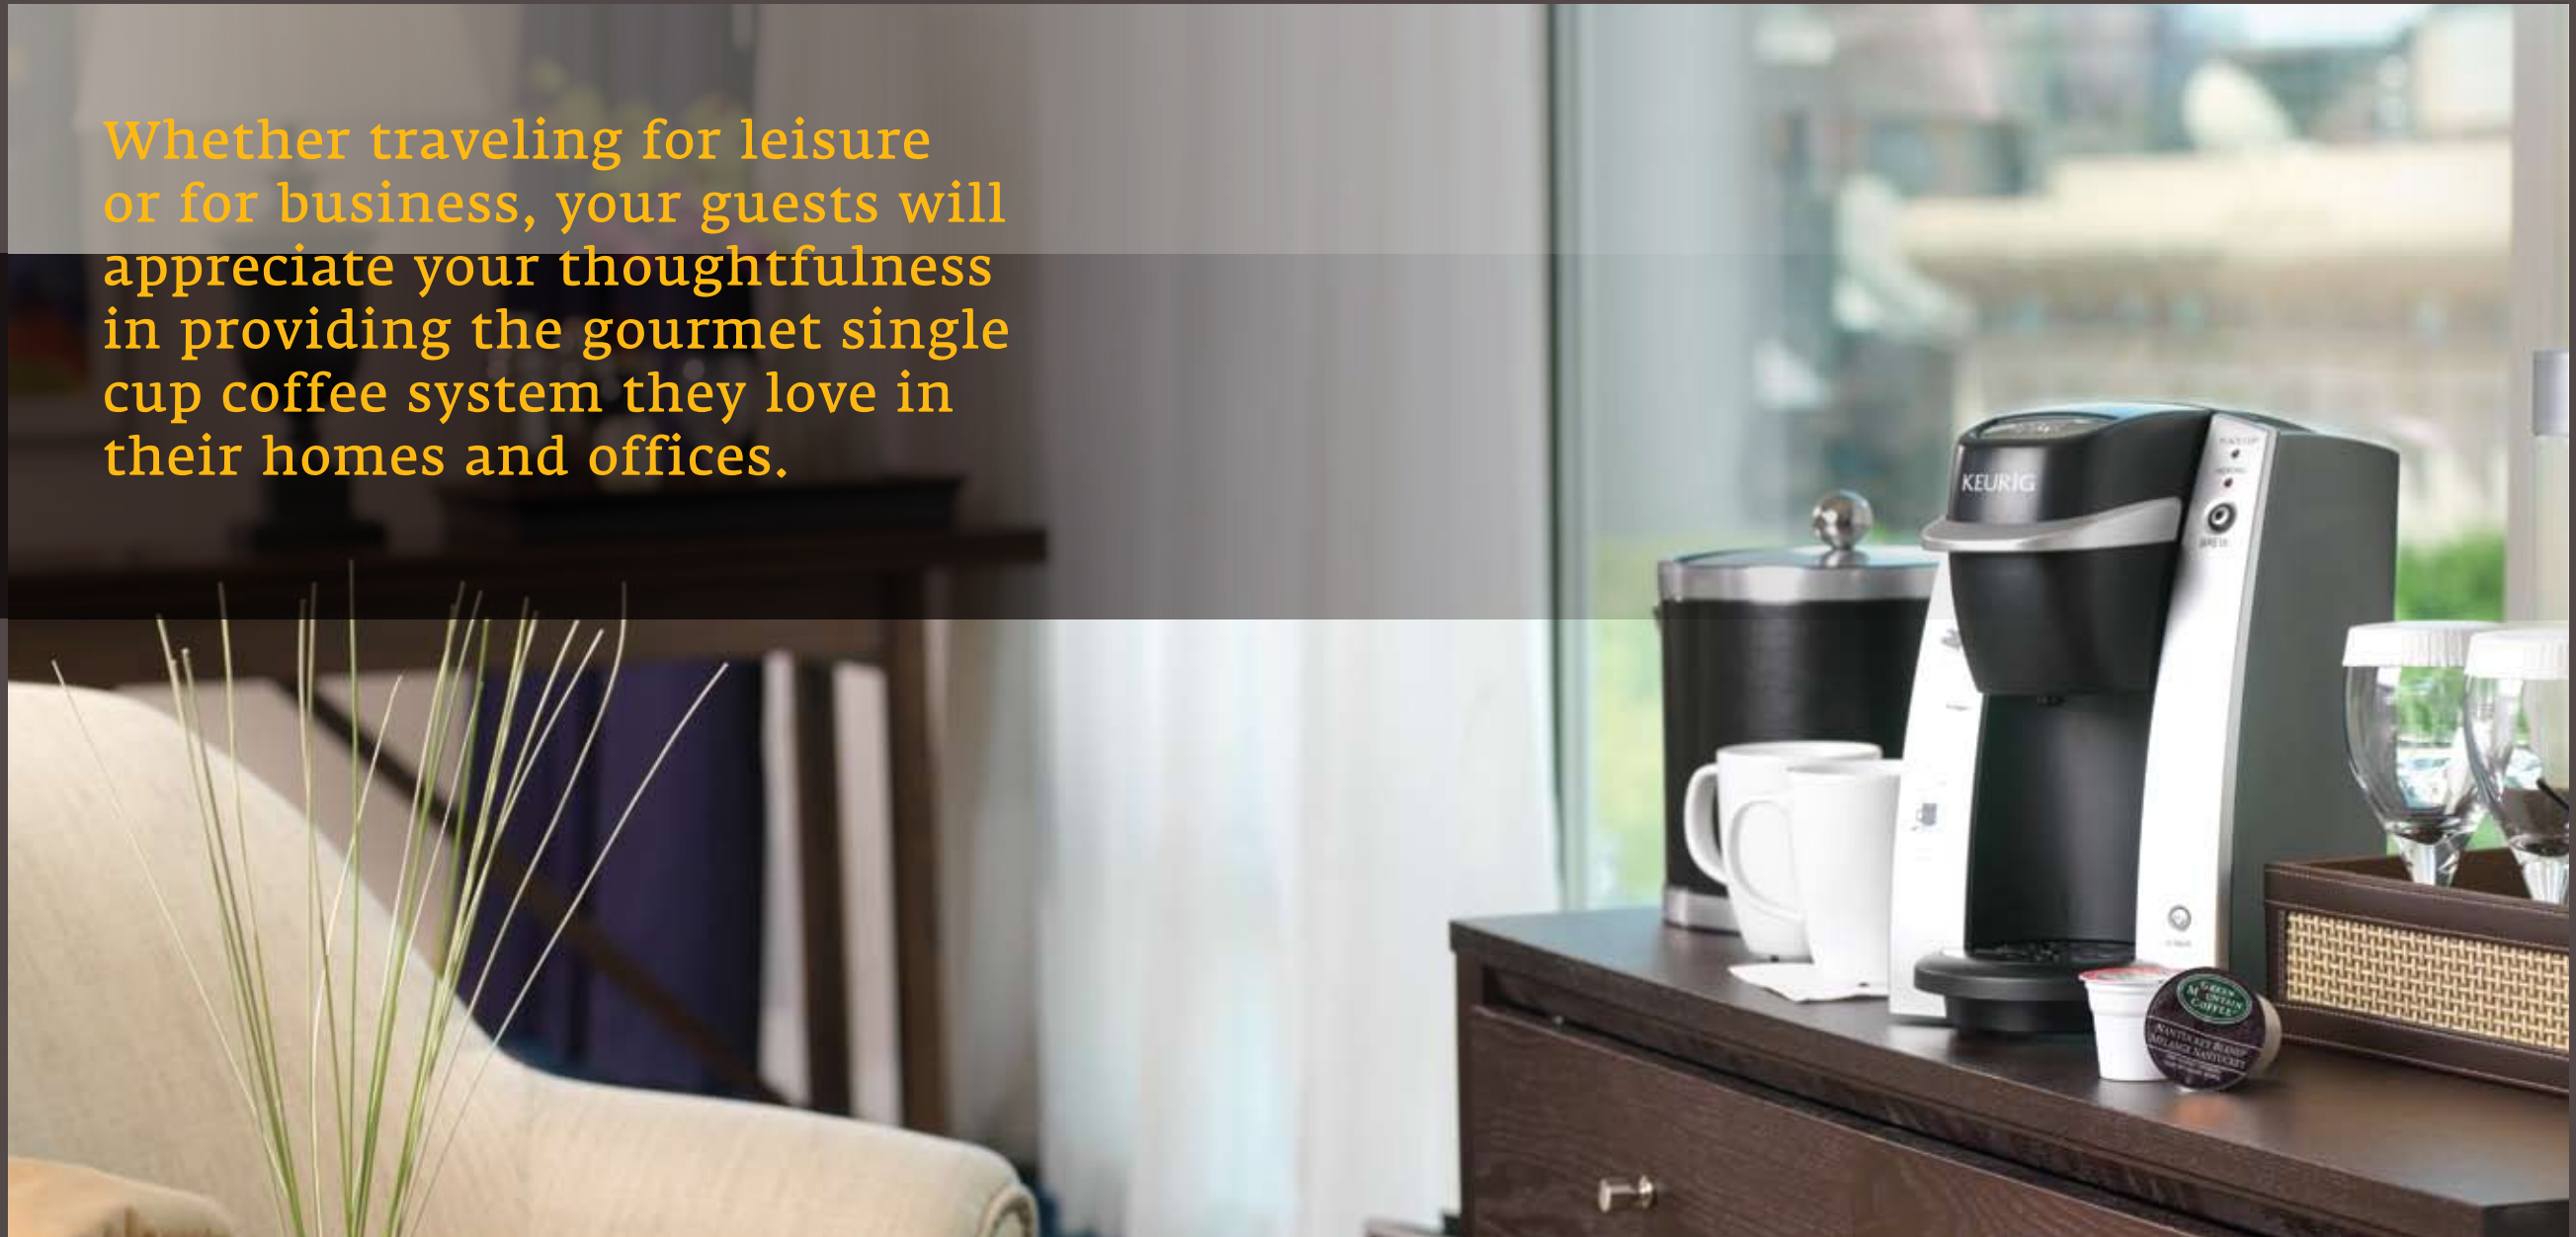

Keurig's patented K-Cup® brewing system brews a fresh gourmet cup every time, at the push of a button.

## ENJOY®

A gourmet experience awaits your guests, with no mess or cleanup.

Whether traveling for leisure or for business, your guests will appreciate your thoughtfulness in providing the gourmet single cup coffee system they love in their homes and offices.

## A SPECIAL START TO THE DAY FOR THE BUSINESS TRAVELER

“Business travel can be so exhausting,  
and starting the morning with a proper cup  
of caffeine can make all the difference in how  
one's day turns out. Thank you Keurig!”

— Adam V., San Diego, CA

## INDULGENCE FOR THE LEISURE TRAVELER

“We have a Keurig coffeemaker at home. Pleasant  
surprise to find one here. It should be standard equipment  
in all hotel rooms across North America!”

— Gil Lange, Calgary, AB Canada

# THE KEURIG B130: A COFFEE HOUSE IN EVERY GUEST ROOM

## Designed for Hospitality.

The B130 was designed specifically for hospitality. Its step-by-step pictorial instructions allow any guest to operate the machine with ease. Its styling, shape and size (just ten inches deep, seven inches wide and fourteen inches high with its lid fully open) allows it to be positioned nearly anywhere.

## Saves Housekeeping Time and Effort.

With the B130, there's no carafe or drip baskets to clean. No glass that can shatter. No water stays in the machine between guest stays. There are no grounds or wet, messy filters to pick up. All brewing takes place within the K-Cup® portion pack which is easily disposed of, with zero mess. There's even a sensor that prevents spills when there is no mug in place.

## Put an End to Waste.

Traditional in-room coffee makers, with their glass carafes, require guests to brew four cups at a time. With Keurig, coffee doesn't end up down the drain because your guests only brew the amount they want.

**THE KEURIG® B130: THE PERFECT CHOICE FOR IN-ROOM BREWING**

**HOUSEKEEPING FRIENDLY: VIRTUALLY NO MESS TO CLEAN UP**

The B130 is easy to maintain. There's virtually nothing to clean up and no water left in the brewer between guest stays. And it's safe — no glass carafes to crack or shatter.

**ENERGY SAVER: AUTO-OFF FEATURE**

When the brewer is not in use, it turns itself off automatically. Not only does this increase safety, it can represent a substantial savings in energy efficiency throughout your entire property.

**HARD WORKER: COMMERCIAL GRADE**

The B130 is a rugged machine, built to commercial specifications and UL-approved for commercial use.

**AN EYE FOR DETAILS: MUG SENSOR**

Can't think before your first cup? This brewer can. The B130 alerts you if no mug is present, so there are no accidental spills.

**FOLLOW ALONG: EASY DIRECTIONS RIGHT ON THE BREWER**

Whether guests are fluent English speakers or from another country, they will find it easy to follow the simple pictorial instructions printed on the face of the brewer.

**WHY WAIT: EIGHT OUNCES IN UNDER THREE MINUTES**

There's no need for guests to leave their room to get the coffee they love when they can brew a fresh cup in minutes.

WIDTH x DEPTH x HEIGHT	7" x 10" x 11 1/8"
HEIGHT (WATER LID OPEN)	14"
WEIGHT	7 LBS. (EMPTY)
WATER SOURCE	POUR-OVER ONLY
